About Us

Extreme Fire Solutions is a multidiscipline Fire Protection company.

Extreme Fire was founded by Jody Aldag in 1997.

Our experience spans back to 1988 with the following fire companies: Tyco Fire & Safety, Wormald Fire Systems, Fire Control, Inertia Fire Systems, Fire Zone, Commercial Fire Protection and Mercury Engineering. These years provided the opportunity to gain skills and knowledge allowing us to progress into system design and to build a strong service base for all business.

Being a family owned business, we guarantee personalised service and above all we pride ourselves on our quality of work, customer service and attention to detail. We are a reliable and personalised service company.

Extreme Fire Solutions has been built on the underlying core value of uncompromising personal service where our focus is listening to our customers and delivering.

This core value is very important to us, it flows through everything we do.

The main benefit to you is that you will be dealing with an organisation that cares about every aspect of our relationship.

You in affect become part of our family and we treat you as such.

Vision Statement

To be one of the top five providers of essential services throughout NSW.

Mission Statement

To provide uncompromising personal service

Our Purpose Statement

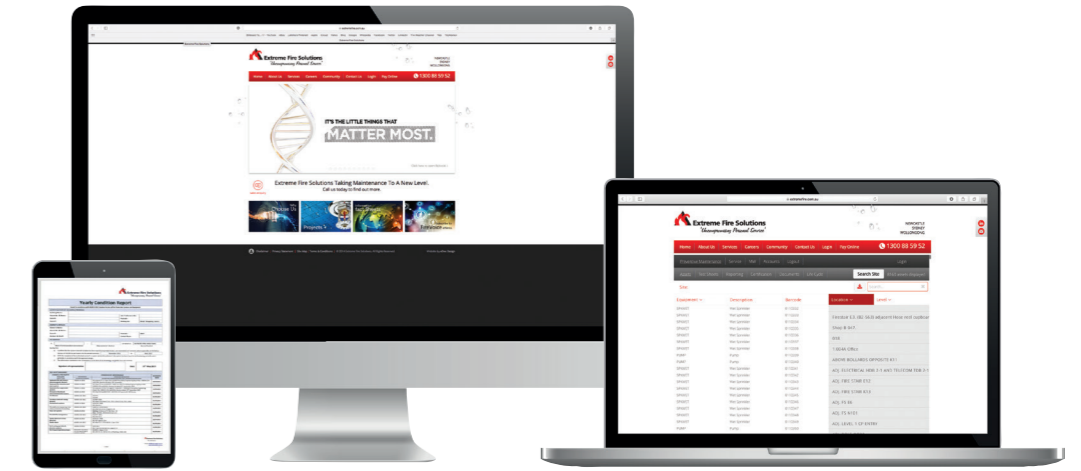

We design, install and maintain all essential services.

We are committed to being a major competitor.

We are committed to the continuous improvement of our business with a major concentration on the development of our people, service to our customers and the quality of products we provided.

The above statements encompass the philosophy and strategy by which Extreme Fire Solutions exists and will continue to grow.

Making Fire Maintenance Easy

iManage Client Portal

Extreme Fire Solutions embrace technology to enhance both our performance and our clients experience.

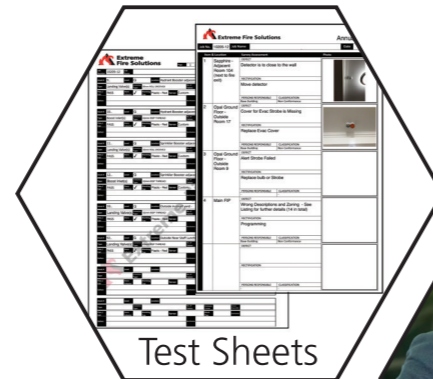

Not only do we incorporate effective solutions like GPS Tracking on our service vehicles, digital testing, digital barcode Asset Management, we also offer our clients the most comprehensive online Client Portal available.

The Extreme Fire Solutions iManage Client Portal is a secure portal, accessible from anywhere.

Perfect for clients that want information at their fingertips. Even more relevant for those clients managing multiple sites.

This comprehensive portal provides features like:-

- Multiple Levels of client access
- Digital Asset Register Management
- Test Reporting direct from Live Testing
- Defect Reporting & Management
- Service & Works Reporting
- Certifications Records
- Key Documentation Management; and our unique
- Lifecycle cost forecasting guide.
